RESIDENTIAL LIVING AND LEARNING MISSION STATEMENT

Residential Living and Learning (RLL) is committed to fostering a student-centered residential experience that builds community, supports purposeful learning, and cultivates meaningful connections through leadership development and holistic engagement.

ABOUT EAST TEXAS A&M UNIVERSITY

At East Texas A&M University, we transform lives! With campuses across Dallas and surrounding regions, we proudly deliver 140+ academic degrees and serve around 13,000 students. In November 2024, we changed our name from Texas A&M University-Commerce to East Texas A&M University. Our new name celebrates our East Texas heritage and connects us to the communities we serve.

Our Mission

Transform Lives.

10 Unique Qualities of East Texas A&M

Quality Academic Programs

From accounting to electrical engineering, East Texas A&M offers around **140 academic degrees** from six university colleges. U.S. News & World Report has ranked several programs at East Texas A&M University among the top in the nation.

Internships and Job Placement

The university's [Student Career Preparedness](#) office helps match students with internships and job opportunities in top-notch industries. From creating strong resumes to honing interview skills, Student Career Preparedness can give students an edge in the job market.

Welcoming Campus Culture

Known for its friendly campus atmosphere, East Texas A&M strives to help every student feel like a valued member of the Lion family. Students enjoy an exciting campus experience as they participate in a thriving [Greek community](#) and **115+ student organizations**.

State-of-the-Art Facilities

Among the university's many outstanding facilities, the **Nursing and Health Sciences Building** features a state-of-the-art simulation hospital where future healthcare leaders practice life-saving skills in a realistic clinical setting.

Convenient Learning Sites

East Texas A&M offers many [learning sites](#) across Dallas-Fort Worth as well as a large selection of online classes. The university's newest site—[East Texas A&M-Dallas](#)—towers above North Central Expressway and places students in one of the nation's global centers!

Entrepreneurship Program

Among the university's many innovative programs, [Venture College](#) empowers budding entrepreneurs to develop and launch their products and business ideas.

Hands-on Agriculture Program

East Texas A&M offers one of the nation's only [agriculture colleges](#) where students experiment with sustainable growing methods to produce their own wheat, cotton and corn crops on a **1,300-acre farm**.

Leader in Texas Education

Founded in 1889 as a teachers' college, East Texas A&M is a leading producer of certified Texas educators.

Show-Stopping Music Program

The university's [School of Music](#) is highly sought after by aspiring musicians and music educators. East Texas A&M is an **All-Steinway School**, a designation bestowed by the prestigious Steinway & Sons piano company. The university is also the world's first institution to receive a Spirio Technology designation.

Powerhouse NCAA Athletics Program

The East Texas A&M Lions are an athletic powerhouse. They claimed the 2017 NCAA Division II Football National Championship. In 2022, the Lions made a move to NCAA Division I as part of the **Southland Conference**.

Discover more about what makes East Texas A&M unique at etamu.edu.

HISTORY OF EAST TEXAS A&M

Established in 1889, East Texas A&M University proudly maintains a 136-year legacy of excellence. East Texas A&M is the third-largest university in the prestigious Texas A&M University System.

Historical Timeline

- **1889**-William Leonidas Mayo founded **East Texas Normal College** in Cooper, Texas.
- **1894**-The Cooper site was destroyed by fire, and the university moved to its present-day location in Commerce.

- **1917**-On March 14, a bill passed in the state legislature making the university a state-funded college. On the same day, Professor Mayo died suddenly before receiving the news that his college would live on. Subsequently, the name changed to **East Texas State Normal College**.
- **1923**-The school was renamed **East Texas State Teachers College**.
- **1935**-Graduate education entered the curriculum.
- **1957**-The state legislature, recognizing that the university had broadened from teacher education alone, changed the university's name to **East Texas State College**.
- **1962**-The first doctoral program was inaugurated.
- **1965**-The university's name changed to **East Texas State University**.
- **1996**-The university's name changed to **Texas A&M University-Commerce** when the university joined the Texas A&M system.
- **2024**-A&M-Commerce became **East Texas A&M University** when The Texas A&M University System Board of Regents approved the name change on November 7.

FIRE REPORTING AND OTHER IMPORTANT INFORMATION

REPORTING FIRES:

On campus phones - Police/Fire/Medical 9-911

Off campus or cellular phones – 911 or (903) 886-5111

Per federal law, East Texas A&M University is required to annually disclose statistical data on all fires that occur in on-campus housing facilities. Listed below are the **non-emergency** phone numbers to call to report fires that have **already** been extinguished in on-campus student housing. These telephone numbers are for fires for which you are unsure whether the East Texas A&M University Police may already be aware. If you find evidence of such a fire or if you hear about such a fire, please contact one of the following:

University Police Department – (903) 886-5868

Main Campus – Residential Living and Learning – (903) 886-5797

Farm Complex – College of Agricultural and Natural Resources – (903) 886-5358

Facilities & Construction – (903) 468-6006

When calling, please provide as much information as possible about the location, date, time, and cause of the fire.

OTHER IMPORTANT TELEPHONE NUMBERS:

Physical Plant – (903) 886-5761

Fire Department – (903) 886-1147

REPORT

This report is developed as a requirement of the Higher Education Opportunity Act (Public Law 110-315).

This report does not include any information required to be reported under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act Annual Report. Information regarding the Clery report is available by contacting the University Police Department at (903) 886-5868 or on the web at:
<http://www.tamuc.edu/crimestats>

This report contains the prior three year's data.

FIRE LOG INFORMATION/LOCATION

East Texas A&M University maintains a fire log that is available to the public.

The log is kept in the Facilities & Construction Department and may be accessed on the web at: [Fire Log](#)

Additional information can be requested on the web at: [Public Information](#)

DEFINITIONS

(Source: Department of Education)

Cause of fire: The factor or factors that give rise to a fire. The causal factor may be, but is not limited to, the result of an intentional or unintentional action, mechanical failure, or act of nature.

Fire: Any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.

Fire drill: A supervised practice of a mandatory evacuation of a building for a fire.

Fire-related injury: Any instance in which a person is injured as a result of a fire, including an injury sustained from a natural or accidental cause, while involved in fire control, attempting rescue, or escaping from the dangers of the fire. The term “person” may include students, employees, visitors, firefighters, or any other individuals.

Fire-related death: Any instance in which a person—

(1) Is killed as a result of a fire, including death resulting from a natural or accidental cause while involved in fire control, attempting rescue, or escaping from the dangers of a fire; or

(2) Dies within one year of injuries sustained as a result of the fire.

Fire safety system: Any mechanism or system related to the detection of a fire, the warning resulting from a fire, or the control of a fire. This may include sprinkler systems or other fire extinguishing systems, fire detection devices, stand-alone smoke alarms, devices that alert one to the presence of a fire, such as horns, bells, or strobe lights; smoke-control and reduction mechanisms; and fire doors and walls that reduce the spread of a fire.

Value of property damage: The estimated value of the loss of the structure and contents, in terms of the cost of replacement in like kind and quantity. This estimate should include contents damaged by fire, and related damages caused by smoke, water, and overhaul; however, it does not include indirect loss, such as business interruption.

ON-CAMPUS STUDENT HOUSING INFORMATION

F Halls

The F Halls consist of six 7,604 square foot reinforced concrete and brick two-story 40 bed residence halls and are made up of double occupancy rooms (with a private room option), community showers, lounges and large kitchen.

Whitley Hall

Whitley Hall is a 219,096 square foot reinforced concrete and brick twelve story 510 bed high-rise residence hall and is made up of double occupancy rooms (with some private room option), shared showers, community lounges, and a main lobby. Whitley Hall was offline fall of 2021. Whitley Hall was brought back online the fall of 2022.

New Pride Apartments

New Pride Apartments consists of six separate wood frame and masonry two-story apartment buildings (Building 1 is 20,271 square foot and Buildings 2-6 are 15,917 square foot each) with a total of 300 beds and a 3,173 square foot community center. Each apartment comes with a private bedroom, two bathrooms, and a shared living and kitchen space.

Prairie Crossing Apartments

Prairie Crossing Apartments is a 166,376 square foot wood frame and masonry four-story 282 bed apartment building with suite-style living accommodations. Each apartment (one, two, or four bedrooms) comes with a private bedroom, one or two bathrooms, and a shared living and kitchen space.

Pride Rock Hall

Pride Rock Hall is an 85,970 square foot wood frame and masonry three story 250 bed residence hall and is made up of 2-1 suite style rooms (residents have private bedrooms and share a bathroom with one roommate).

Phase II Hall

Phase II Hall is an 184,745 square foot wood frame and masonry four story 540 bed residence hall and is made up of 2-1 suite style rooms (residents have private bedrooms and share a bathroom with one roommate).

Phase III Hall

Phase III Hall is an 136,593 square foot wood frame and masonry four story 490 bed residence hall and is made up of double and private rooms and centralized private bathrooms.

Twin Oaks Blueberry Farm House

The Blueberry Farm House is a 4,119 square foot wood frame and siding two story 7 bed residence/educational facility made up of individual rooms, community showers, lounges and a large kitchen. The house is located on the Farm Complex and is managed by the College of Agricultural Sciences and Natural Resources. Students began living at the house June 2018.

Berry Hall

Berry Hall is a 61,567 square foot reinforced concrete, steel, and brick two-story 296 bed residence hall and is made up of double occupancy rooms (with some private room option), community bathrooms, lounges, and a main lobby. Berry Hall was taken offline in the second half of 2017. Building is **inactive**.

Smith Hall

Smith Hall is an 81,192 square foot reinforced concrete and brick three-story 410 bed residence hall and is made up of double occupancy rooms (with some private room option), half baths in suites, community showers, lounges, and a main lobby. Smith Hall was taken offline in the second half of 2020. Building is **inactive**.

West Halls

The West Halls are 5,016 – 7,965 square foot reinforced concrete and brick two-story 16 – 24 bed residence halls made up of two-bedroom/one-bathroom apartments consisting of private bedrooms and a shared bathroom, kitchen and living space. The West Halls include Craddock Hall, Bledsoe Hall, Neu Hall, Fling Hall, Webster Hall, and Wray Hall. The West Halls were taken offline the second half of 2021. Buildings are **inactive**. West Halls were demolished in 2025.

COVID-19 Temporary Housing

The COVID-19 temporary housing is a 2,204 square foot wood frame and brick one story duplex. The duplex may be used sporadically as needed as a result of the COVID-19 pandemic. This housing has been discontinued as of the end of 2021. Building is **inactive**.

COVID-19 Temporary Housing, 1704 Jackson St	0	0	N/A	N/A	N/A	N/A

FIRE SAFETY POLICIES

Unapproved Appliances and Household Items

To ensure a safe environment for all residents, all items brought into the residence halls and apartments must be approved for use. Items with an open heating source or that pose a fire safety risk are not allowed in any residence hall or apartment. This includes, but is not limited to, halogen lamps or bulbs, hot plates, rice cookers, air fryers, crockpots, coffee makers, deep fryers, broilers, and toaster ovens.

Prohibited Items

Due to safety and security concerns, the following items are strictly prohibited within residence halls and apartments: electrical balance/hoverboards/scooters/skateboards, sun lamps/tanning beds, shopping carts, string lights, scented plug-ins, warmers, multiple socket boxes, electric blankets, gasoline cans, candles, incense, oil lamps, extension cords, and space heaters. This list is not all-inclusive; any item that poses health and safety risks to the community, damages university property, or negatively affects building functions and operations is prohibited.

Arson

Starting a fire, no matter the size, inside a residence hall, apartment, or in the surrounding outdoor areas, is strictly prohibited. This includes intentionally setting fire to items on doors, bulletin boards, furniture, trash, or any other flammable material. Violations may also be subject to state or local fire laws and can result in disciplinary action. Grilling is only permitted in designated outdoor grill areas and must follow all posted safety rules and regulations.

Cooking

Cooking in the residence halls and apartments is only permitted with approved appliances (see the Unapproved Appliances and Household Items policy for more details). Residents are responsible for ensuring that proper sanitation, ventilation, and fire safety measures are followed. Cooking is permitted only in apartment kitchens and residence hall community kitchens, unless a microwave is used. Community kitchens must be kept clean at all times (dishes washed, food stored properly, etc.). Any damages caused by improper use of kitchens or food disposal will be billed to the responsible individual(s).

Door Propping/Pulling

Due to safety concerns, propping or forceful pulling open any residence hall door, including laundry room doors, is strictly prohibited. Residents responsible for this violation will be charged \$50 per instance to their student account.

Fire Safety

All residence halls and apartments are equipped with fire safety equipment. This includes but is not limited to smoke detectors, fire extinguishers, pull stations, fire and evacuation signs, and fire exit doors. Residents and their guests are required to abide by the following policies and guidelines:

1. Residents are not permitted to tamper with or destroy fire safety equipment. *Please see the Code of Conduct.*
2. Residents are required to exit the building during all fire alarms.
3. Residents are not permitted to possess items with an open flame, whether lit or not, such as candles.
4. Residents are permitted one UL-approved power strip per wall outlet and are prohibited from plugging one power strip into another. All major appliances (refrigerators and microwaves) must be plugged directly into the wall outlet. Extension cords, including light strings, are prohibited.
5. Residents are prohibited from pulling on or propping any Fire Exit or Exterior Building Door.
6. Emergency exits are to be used for emergency evacuations. The misuse of emergency exits will be documented and handled judicially, which could result in a fine and/ or disciplinary action.
7. Paths to the exit door, windows, hallways, and safety equipment should be kept clear at all times.
8. Fireworks, Smoke Bombs, and Explosives of any kind are not permitted within the entire campus community.
9. Only 20% of each side of room doors may be decorated.
10. Tampering with the electrical/wiring system, painting, and installing any additional property is prohibited.
11. Covering or removing smoke detectors may incur a fine of up to \$500 and may result in removal from Housing.
12. Storing or using electric vehicles (e.g., e-scooters, e-bikes, e-skateboards, etc.), including batteries, is not permitted and may incur a fine of up to \$500, confiscation, and/or resident removal from Housing.

Room Modifications/Decoration

Residence halls and apartments are equipped with items deemed fire-preventative and safe. Residents must follow these policies regarding room modifications and decorations:

1. Residents must leave their rooms in the same condition as noted in their room condition report.
2. Painting rooms is not allowed.
3. Using command strips or other materials to hang items is prohibited, as these can damage walls by removing paint. Violating this policy will result in a fee being charged to the student's account.
4. Industrial pushpins and small picture-hanging nails may be used to hang items.
5. Items placed in windows that the University finds offensive and/or obscene must be removed immediately; failure to comply may lead to a conduct process.
6. Additional lock mechanisms cannot be installed on room doors.
7. Residents are responsible for any damage beyond normal wear and tear to residential facilities.
8. The use of double-sided tape is prohibited on all surfaces due to potential damage.

9. Mounting televisions on the walls is not permitted at any time.

Any damages resulting from violations of these policies may be charged to the student's account.

Smoking/Tobacco/Vaping

To protect the health and well-being of students, faculty, staff, and visitors, as well as to maintain the physical condition of university-owned property, smoking, vaping, and tobacco use are prohibited inside and adjacent to any building owned, leased, or operated by ETAMU. All residence halls and apartments, including public seating areas outside and adjacent to them, will be smoke-, vapor-, and tobacco-free. The smell of smoke, ashes, tobacco, or any combination of these substances, as well as other evidence of smoking or tobacco use, will be documented and addressed through the conduct process. **This may result in a fine of up to \$500 or the termination of the student's housing contract.**

Sprinkler System

In addition to the fire alarm system, sprinklers have been installed in many residential communities. These measures are in place for the safety and protection of residents, their belongings, and the University's property. According to the NFPA 2018, nothing can be stacked, stored, or constructed within 18 inches of a sprinkler head (non-sprinkler residential communities are 24" from the ceiling). **Hanging objects from sprinkler heads is strictly prohibited.** Report any damage to the sprinkler system to the front desk of your residential community immediately.

Smoke Detectors

Each residence hall has a smoke detector. Smoke detectors in rooms are inspected yearly by the Department of Campus Operations and Safety. If the smoke detector starts beeping intermittently, it might mean the battery needs replacing. Submit a work order to change the battery. Do not remove the smoke detector, as this violates RLL Policy and will cause UPD to be notified to respond to your residence.

FIRE DRILL AND EVACUATION PROCEDURES

Fire Drills

For the protection and safety of our community, unannounced fire drills will be held during the academic year. Your cooperation is mandatory to become familiar with evacuation routes. Anytime the alarm sounds, residents must exit the building. Participation in fire drills is required by state law. If you are confirmed to have an emotional/support animal, you are responsible for the animal during the fire drill.

Fire Alarm System/Student Housing Evacuation

Each building is equipped with a fire alarm system. Residents are required to evacuate the building during the sounding of all alarms unless told otherwise by a member of the building staff and/or the University Police Department. Residents are prohibited from tampering with these systems, including but not limited to pulling fire alarms when no fire or threat of fire is present, playing with fire extinguishers,

covering smoke detectors, and hanging items on or playing with the sprinkler system within the building. Failure to adhere to this policy could result in a fine of up to \$500. (See Policy and Procedures for evacuation plans.)

When an alarm sounds, residents should do the following:

1. Immediately close windows.
2. Grab keys, phone, and University ID card.
3. Wake your roommate and inform them of the alarm.
4. Put on shoes and grab a jacket (if during night and/or colder months)
5. Check the door or doorknob. If it is cool, open it and proceed toward the closest emergency exit to the assigned meeting location. If it is hot, do not open it; place a towel under the door. If smoke is either seen or smelled, call 911 and inform them of your location.
6. Leave the door closed and walk to the exit. If smoke is encountered, stay low for air.
7. Do not use an elevator.
8. Do not re-enter the building until cleared by UPD or a Residential Living and Learning staff member.

FIRE SAFETY EDUCATION AND TRAINING PROGRAMS

East Texas A&M University offers the following fire safety education and training programs:

- Hall Directors, Desk Attendants, and Resident Assistants are provided fire and life safety training, including hands-on fire extinguisher training, annually.
- All students are provided copies of the Residential Living & Learning Community Handbook which contains fire safety and prevention information.
- All students have access to the fire safety and prevention training available on the website [The Peoples Burn Foundation Education](#).
- In conjunction with the Texas State Fire Marshal's office, implemented the "Have an Exit Strategy" program through the publication of the link for the website <https://www.tdi.texas.gov/fire/exit-strategy.html>.

The above links, along with additional information, are available on the Facilities & Construction Department website at:

[Facilities & Construction](#)

FIRE SAFETY INSPECTION PROGRAM

East Texas A&M University conducts several levels of fire and life safety inspections in all of our residence halls and apartment facilities.

Inspections of fire doors, fire extinguishers, exit signs, and emergency lighting are conducted in all common areas on a periodic basis.

The University's Facilities & Construction Department coordinates inspections, testing, and maintenance of fire safety equipment in compliance with the requirements of the National Fire Protection Association.

All on-campus living facilities, including Main Campus and the Farm Complex, are inspected periodically by the Texas State Fire Marshal's Office.

Residential Living and Learning Staff will conduct Health and Safety Inspections four to six times a year. These checks will be announced and are made to ensure that:

1. University property is being used properly;
2. Reasonable standards of room cleanliness, safety, and sanitation are being observed;
3. Maintenance needs are reported;
4. RLL procedures are being observed;
5. All directives of the State Fire Marshal and Fire Safety are being observed.

PLANS FOR FUTURE IMPROVEMENTS IN FIRE SAFETY

(if determined necessary)

The University continues to invest in the maintenance of fire and life safety systems and improvements when necessary. Kitchen fire suppression systems and new fire alarm panels are planned for the F Halls.

REPORT CONTACT INFORMATION

For purposes of including fire statistics in the annual fire safety report, employees and students should report all instances that a fire occurred in on-campus student housing to the individuals listed below. These individuals also can provide additional information about this report.
