Regulation Summary

The Texas A&M University System (system) is committed to provide a safe and healthy environment for all employees, students, and visitors and ensure the preservation of state property. A comprehensive health and safety program is fundamental for realizing this commitment.

Regulation

As provided by Executive Order GWB 95-8 (*Relating to Workplace Safety and Health of State Employees, Citizens Served, and Preservation of State Property*), the system and its members will develop and maintain a comprehensive health and safety program. System Risk Management will provide oversight and guidance for the members' health and safety programs based on federal and state laws and regulations. As part of the system's health and safety program, System Risk Management will offer assistance as necessary, including training to foster member compliance.

Members are required to have health and safety programs in each of the following areas when and where potential risk has been identified.

1. [AGRICULTURE AND FORESTRY SAFETY](#)
