Federal regulations give colleges and universities the discretion to update a student's marital status once a FAFSA has already been signed and submitted. At East Texas A&M, a student may petition to have their status changed to "married" by completing this form and submitting the required documentation.

We recommend that you do not make any changes to your FAFSA directly as this will delay processing.

Required Documentation

- ☐ Marriage License
- ☐ You and Spouse's 2023 IRS Tax Return Transcript www.irs.gov/Individuals/Get-Transcript
- ☐ You and Spouse's 2023 W2

Now that you are married, please list your family members below. The list should include yourself, your spouse, and any family members that you and your spouse will provide at least 51% of the financial support for this year. Also, if any family members (to include yourself) are in college, then please list the college, university, or school the family member is attending.
